

Arboretorial

An area survey was carried out on 16 October 2018 by local tree surgeon, Phil Shirley. He found an abundance of Sycamore, Hawthorne, Ash and Hazel. The Ash trees appeared at that time to be healthy and not yet suffering from Ash Dieback disease. In addition, he found:

- Elm saplings in one location; these are unlikely to grow to mature size because of 'Dutch Elm Disease'
- An unusual tree, Goat Willow, in the garden of 32, Back Lane, Darshill
- Crack Willow on the Darshill Millpond Site, as expected on this wetland

Darhill and Bowlish Biodiversity Study - Arboretorial findings 2018/19

<i>NAME :</i> Phil Shirley	<i>Chosen subject:</i>	Arboretorial
	<u>WHERE</u>	<u>WHAT</u>
16/10/2018	Bowlish Ham Lane from Sunnymount	Ash, Sycamore, Hawthorn, Hazel, Young Oak, Elder (weed), Solver birch, Norway Maple, Hazle, Laurel, Poplar, Bramley Apple, Yew, Irish Yews (upright), box elder, Ash, Hazel, Hawthorne, Beech, Horse Chestnut.
